

Style. Power. Spirit.

Like all of your decisions. THIS ONE SETS YOU APART.

## YOUR ESCAPE AND YOUR DESTINATION

**You work hard for the opportunity to escape the demands of the day and cruise out on the open water in style.** With every breath of fresh air you leave one more challenge behind. Fellow boaters give a nod of understanding...with a hint of envy. You have a unique spirit and your choice in ride reflects all that sets you apart. With a throaty rev of the engine you are pushed back in the seat a little more, reminded of the power within. As each cut through a stray wake confirms your untethered state. Furina affords you an escape and she becomes a part of you: Your destination while en route to another day.

## UNIQUELY HER AND DISTINCTLY YOU

**Furina is well thought out with every detail provided for your pure enjoyment.** Classically inspired, Furina is twenty-four feet of powerboat sophistication. High-end finish, luxurious interior, and stainless steel accents add to her appeal.

Designed with a deep-V hull Furina glides through uneasy waters with confidence. Whether in salt or fresh water, you will appreciate her smooth ride with effortless and responsive handling. A Volvo Penta V8 engine with Duoprop® sterndrive delivers 380 horsepower, superior acceleration, and fuel efficiency.

**Furina Powerboats is a bespoke powerboat builder, providing you with the opportunity to customize Furina to your preference, personality or superyacht.** Choose from a distinctive exterior color palette and preferred configuration. Interior fabric, decking and embroidery options. Select choices of engine, technology and entertainment.

## COMPOSE YOUR EXPERIENCE

**Further elevate your experience with the latest in powerboat technology.** Receive engine status, navigation and depth readings through the programmable Garmin Glass Cockpit with touch-screen. And satisfy your inner composer with the Bluetooth audio streaming via FUSION-Link™, app-controlled LED lighting, and iPhone/iPod docking stations.

**Escape on a future classic. Call 413-626-8120 to design your Furina today.**
